A TRUE COUNT.

The police begin to-day the census of the City of New York. The reason is the very simple one that the population of this city was not correctly taken by the National census enumerators. This was suspected by the Board of Health when it found that the figures of the enumerators were at variance with those on which it computed for statistics. The board had one ward recounted and discovered that fully thirty per cent. of the residents had mot been counted by the official census

The Mayor was appealed to for a nev count which would give the true population, and the police have been de puted to make this enumeration. It is important that a correct basis of reckoning should be supplied to the Board for its statistics.

Only the simplest, most neces ary ques tions will be asked by the policemen, and The citizens should co-operate in the work by seeing that they are answered promptly. It seems impossible that the Noti nal Bureau of Census should adhere to the figures of its late enumeration if those of this one should vary from them to any autent. If we are to be counted let us all be counted, so that the population may be exactly known.

### A DEFIANT CHALLENGE,

One Jacques, a French faster, has issued a most defiant challenge to one or, an Italian faster, to meet him in the lists of ab-tinence. Jacques, in proud and burning language, bids Succr starve with him or else to branded as a braggart with an irresistible appetite. Big. Sucor declares he will not starve with Jacques because he has not ill will enough toward him to kill him, and says also that the Frenchman is wont to extenuate his ab tinence from food by draughts of porter, which he will not suffer to be examined. Sig. Succi moreover looks down on Jacques because he cannot give the reason for his ability to fast, while he, Bucci, can. The reason Mr. Succi naively gives as fully showing how he does it is 'a secret power which enables me to endure the ravages of hunger!" This is very illuminating. But porter is no "secret power," so Jacques may be "melancholy Jacques" now.
